

D2S Foundry 2026

Office Open Day Guidelines

Overview

The **Office Open Day** is a half-day experience where students visit multiple companies located within walking distance of each other. This neighborhood-based format allows them to explore a specific district, learn about diverse industries, and gather practical insights for their business idea projects and career planning.

Important Information

- Each team will participate in ONE session and visit TWO companies (D2S team will confirm the details with each team shortly) .
- Mentors and teachers are encouraged to support the facilitation process:

Before the visit:

Have students go through the company background (*can refer the table below*) and prepare at least two questions focusing on:

- What do they hope to learn about the company's business?
- What would they like to learn about the industry? (e.g. career opportunities)

During the visit

- Encourage students to actively participate and ask questions
- Have them complete the self-reflection card distributed on the day

After the visit:

Invite each student to share their experience and key takeaways. You may ask them to reflect on what they wrote in their reflection card, or use the following questions to guide the discussion:

- What can we apply to our team project?
- What new things did you learn about this industry?
